OLYMPUS[®]

Stylus 150 Brains and beauty meet in this sleek, ultra-compact camera. Loaded with innovative features and all-weather durability. A powerful 4x zoom lens with aspherical and ED glass elements captures crisp detail and vibrant color. The new camera shake indicator helps eliminate image blur. Sharp. Sophisticated. Stylus.

Stylus[®] 150

A high quality 4x zoom lens with aspherical and ED glass elements ensures vibrant colors and crisp detail – up close or at a distance.

Powerful 37.5 – 150mm Zoom Lens True 4x zoom gives you the versatility to capture any shot you want. Zoom in to frame your subject perfectly or zoom out to capture it in brilliant surroundings. Photos are vibrant with crisp edge-to-edge detail at every point in the zoom range.

All-Weather Design More than just good looks, the all-weather exterior provides rugged durability. No umbrella. No worry. Turn any weather into beautiful photos.

Camera Shake Indicator This innovative feature prompts you to steady the camera when shake is detected. Even if movement continues, it automatically selects a faster shutter speed to reduce image blur.

Advanced Auto Exposure Featuring 3 unique optical sensors, the new Auto Exposure system helps recognize and overcome difficult backlight and indoor light conditions to ensure proper exposure.

Ultra-Compact and Stylish A sleek and sophisticated camera packed with innovative features. Small enough to put in your pocket. Stylish enough you won't want to.

Smile and Say "Auto" Auto film load, advance and rewind. Auto flash and focus. With the Stylus 150 great pictures are virtually automatic. The only thing left to do is smile.

Great Photos in a Flash 6 mode variable power flash with auto color balancing and red-eye reduction. This intelligent flash can even neutralize harsh fluorescent lighting. It ensures natural looking skin tones and uses the proper amount of flash.

Performance meets style. Robust features with advanced functionality in a slim, stylish design. Photos the way you've always imagined. The small camera that lets you dream big.

When excessive camera shake is detected, a faster shutter speed is automatically selected to reduce image blur.

An all-weather body gives the protection needed for any weather condition, making that special shot possible.

Sophisticated Autofocus This innovative 11-point multi-wide autofocus system recognizes off-center subjects and adjusts automatically, producing superior details in a variety of compositions.

Supporting Features Landscape Mode. Spot Mode. Electronic self timer and optional infrared Remote Control. Dioptic Correction. Quartz date and time stamp feature for easy organization. Compact yet complete.
